Name of rail transport operator:

Rail Safety Worker Health Assessment
Category 1 and 2

Worker Notification and Health Questionnaire

CONFIDENTIAL:
FOR PRIVACY REASONS THE COMPLETED FORM SHOULD BE RETAINED BY THE AUTHORISED HEALTH PROFESSIONAL AND NOT RETURNED TO THE RAIL TRANSPORT OPERATOR

Instructions to the worker / applicant

- You are required to attend a health assessment as part of your employment, to assess your fitness for rail safety work.
- The health assessment must be completed by *(date)* to ensure that you are able to carry out normal duties.
- Complete the enclosed questionnaire **before attending the appointment** and provide it to the examining doctor. **The last page of the questionnaire must be signed by you in the presence of the examining doctor.**
- Please take to the appointment:
  - glasses, hearing aid or any other aids required for conduct of your work;
  - all medication that you are currently taking or a list of such medications; and
  - photo identification
- If you are a **Category 1 Safety Critical Worker** you will be required to have a blood test as part of your assessment. To get a true reading of your cholesterol (total and HDL) you must not eat for a minimum of 8 hours (and no longer than 14 hours) before your blood test. You may drink water but you should not have sweetened drinks or juice. This appointment/test should take place at least 48 hours before the appointment with the doctor so that he/she has the results.

What happens if the examining doctor suspects there is a health problem?

If the examining doctor finds or suspects something is wrong with your health that you did not know about, they will ask your permission to inform your own doctor. The examining doctor will not treat any medical condition but will give you a letter to take to your own doctor.

If the doctor finds that you do not meet all relevant medical criteria, your supervisor at the rail transport operator will discuss with you the appropriate actions to be taken. This may include:

- modification of the duties that you undertake for the rail transport operator; and/or
- scheduling of a further review, tests of specialist referral.

Disclosure of health information – please read carefully and sign to indicate you understand how health information is reported, stored and accessed.

All your detailed medical papers including your questionnaire responses, test results and the complete record of clinical findings are kept confidential, and are not available to your managers. The examining doctor sends only the completed report form directly to the rail transport operator indicating your fitness or otherwise for duty.

If the rail transport operator uses the services of a Chief Medical Officer (CMO), the CMO may access a copy of your health record to aid in the management of your health in relation to your work or for audit purposes or to compile statistics. The CMO must maintain the confidentiality of these records and ensure that your personal information is not made available to, or discussed with, any other person within the organisation.

Other than the above, your personal information will not be disclosed to any other person or organisation without your written permission, except:

- when the rail transport operator appoints a health professional to conduct an audit of the system for the health assessment of rail safety workers, then the appointed health professional will have access to the information for the purpose of undertaking the audit; and
- where required by law.

You have the right to access your health records including those held by the Authorised Health Professional and the reports held by the rail transport operator.

Worker's declaration

I, *(print name)*

certify that I have read and understood the above statement concerning the health information provided in this document.

Signature: Date:
